

Beginning with the 2017 Fall CYO season, we will be using FinalForms to assist with the completion & collection of required paperwork. FinalForms is an online forms and data management service that has been used by several Toledo grade/high schools. In addition to the online management of family & emergency medical information, player fees will now be paid electronically via the website.

Information required for the Emergency Medical Form as well as the Concussion Acknowledgement, will be able to be entered, reviewed and signed electronically. The information entered will pre-populate should you have more than one child participating in the CYO program. The data will be stored and may be updated as needed.

The Athletic Contract (Physician Signature) as well as the Booster Volunteer Form will still need to be returned to your respective coach. The date of your child's physical will be entered into the FinalForms site. (Per CYO policy, a physical is valid from one year of examination) As the 1 year mark approaches, system generated emails will be sent, reminding parents that a new physical will be required.

Initial enrollment should take approximately 15 minutes to complete. After that, only updates will be required.

The attached form will guide you through the enrollment process.

Please let me know if you have any questions and welcome to another CYO season!!!

Sincerely,

Mike Piotrowicz, SJM Athletic Director
